California State University, Fullerton has an online professional development program in Corporate Security Management .

Our Corporate Security Management certificate program is now online and registration is now open. The first online class starts March 1st. The classes are still instructor lead so they have a start date and an end date, however the time the student interacts with the class is flexible within those dates.

The Chapter Thanks Daniel R Pascale, CPP Director of Emergency Management at Rutgers University in New Brunswick, NJ for Speaking on Student Involvement and CPP Certification at our January Meeting.
